

What to Bring

- What to bring to your eye health examination
- When you arrive for your eye health exam, we want to be sure you have a first-class experience, and that we don't miss anything which may be important for you, your eye health, safety protection, and comfort.

Please bring the following:

- A list of your current medications by name and dose – vitamins list
- Your vision savings plan information
- Your medical insurance card(s).
- A form of identification
- Your Medicare card if you have one.
- The means to make payments for your co-payments and other responsibilities, if required.
- Your current eyeglasses
- Your current sunglasses
- Your current computer or reading glasses.
- If you are a contact lens wearer, bring your contacts, your contact lens “blister pack”, your contact lens case, your eyeglasses you wear whenever you are on cold, flu or allergy meds and your current sunglasses.
- Any over the counter eye drops not prescribed by your eye doctor.
- Bring anyone with you who you need to help you choose your eyewear.
- You may be dilated to inspect your internal eye health; if you need help driving because your vision may be blurry for a few hours, bring a driver with you.
- Plan on being with us for 90 minutes.

Our entire team will be ready to provide you with an extraordinary eye health care experience.
